5 Letters...

Make me very happy. I've cherished and kept every letter I've received since I made my debut. Thank you so much! ~Receiving letters is the best! ٩٩٩ I have tried making sheets of paper for letters before, but I haven't done that for a long time. I'm sorry! When I become more efficient in using my time, I will start it up again. ~

Well, after I started the AniYoko series, many people have been writing to me using letter pads with panda bears and bunnies. ~That is so nice knowing you all looked! There are some people who even include a little panda doll, so it's been too much fun! ٩٩٩ ~One thing I always wonder about is the fact that Iya is always colored pink when drawn in the letters. Why? Do people automatically equate bunnies as pink? In my imagination, Iya is white with brown spots. It doesn't really matter either way, but...

One more thing. Ever since we started the original series, we have been asking readers to send us their illustrations. I even receive the ones that don't make it to the magazine, and many are well done! It makes me happy. ~ Thank you very much! It's a shame that some of them don't make it to the magazine just because they forgot to erase the pencil lines. ٩٩٩ That's often the only reason why they don't make it.

My favorite was a letter from the winner of my hand-made Iya doll with a little pouch
